

TECHNICAL DATA SHEET

PC 08 W1 1200

GENERAL INFORMATION

White plastic ceramic body, which is inorganic material for ceramic industry without toxic, corrosive, and radioactive as well as not flammable.

Chemical group:	inorganic
Product name:	PC 08 W1 1200
Product group:	ceramic plastic bodies
Type:	porcelain
Manufacturer:	CERATECH GROUP Ltd

TYPICAL PROPERTIES

Appearance:	plastic ceramic body
Colour before firing:	ivory
Colour after firing:	white
Temperature of first firing:	980-1080 °C
Temperature of glaze firing:	1060-1200 °C
Specific gravity:	-

COMPOSITION

Chamotte:	-
Copper oxide:	-
Silicate oxide:	+
Aluminium oxide:	+
Calcium oxide:	+
Magnesium oxide	+
Sodium oxide	+
Potassium oxide	+
Ferrous oxide/>0.3%	+
Lead	-

*This product is a combination of various metal oxides, salts and compounds and as a finished product is not toxic, corrosive, and radioactive as well as not flammable.

PHYSICAL AND CHEMICAL PROPERTIES

980 °C

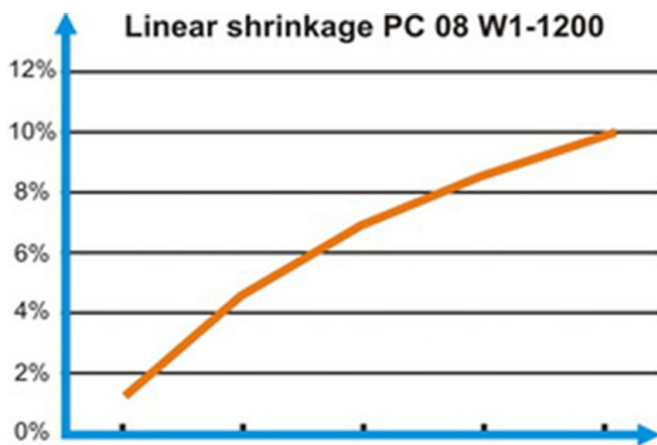

1040 °C

1100 °C

1180 °C

*The values in the graphics are relative and depends on the shape, size, thickness, cycle of firing and other parameters of the product.

METHOD OF APPLICATION

Porcelain body is inorganic material used in ceramic industry. This product is up to the strictest criteria for whiteness and transparency. It contains special additives, which reduce the friction in the mould and increases the hardness and shapeability in a not firing ware. It is suitable for automatic building and pressing to produce tableware, frost resistance tiles and so on

PREVENTIVE MEASURES

Maintain suitable ventilation and avoid breathing dust.

Do not drink, smoke and eat during work!

Maintain a high level of hygiene in the workplace.

It is recommended to use dust mask and safety goggles during work.

STORAGE AND PACKAGING

Store in a dry place (hygroscopic), without direct sun light

Storage temperature: 5-30 oC

Keep the formation and deposition of dust to a minimum.

This product is available in PE packages of 10kg.

ADDITIONAL INFORMATION

This information only concerns the above mentioned products and does not need to be valid if used with other products or in any process.

The information is to our best present knowledge correct and complete and is given in good faith but without warranty.

It remains the users own responsibility to make sure that the information is appropriate and complete for his special use of this product.
